Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Rudd(U.S.Pat.3,872,275). Rud discloses a forge welding with an induction coil that hsows all the features of the claimed invention.

Allowable Subject Matter

Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Benoit, Rudd'437, Chuddakov, and Morris are cited to show structure and methods similar to the claimed invention.
